Raskelf Duvalay wins Product/Service of the Year Award

Raskelf Duvalay has been named the Product/Service of the Year by MMM, the UK's No1 motorhome magazine, at their prestigious 2009 Awards.

The MMM awards, in association with the Caravan Club, are now in their fifth year, recognising the best of the motorhome industry at an annual ceremony held at the Dorchester Hotel in the heart of London's Mayfair. Each motorhome and service considered by the judges has to be nominated by a reader before making it onto the shortlist.

With our band of testers getting their hands on more accessories than ever before, there were more candidates and more heated discussions amongst the judging panel.

Raskelf Duvalay offers the ultimate in sleeping comfort, combining a memory foam mattress overlay in the base and a snug duvet covering. The memory foam creates a comfortable bed base moulding to the shape of your body and the snug duvet will keep you warm. The covers can be removed and put in the wash, removing the tricky task of washing bulky sleeping bags. Making the bed is simply a case of unrolling the bag in the evening and rolling it up again in the morning. This sleeping accessory makes bedtimes much easier.

As Mike Jago, Editor of MMM, said: "A revolution in sleeping equipment, marrying the comfort of memory foam to the convenience of a sleeping bag".
